Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F ☒ Form 40-F ☐

INFORMATION CONTAINED IN THIS FORM 6-K REPORT

On September 9, 2026, Micware Co., Ltd. (the "Company") issued a press release announcing its planned participation in certain roadshow and conferences, including the Emerging Growth Conference (the "Conference"), as more fully described in the press release previously furnished as an exhibit to the Report of Foreign Private Issuer on Form 6-K filed by the Company with the U.S. Securities and Exchange Commission on September 9, 2026.

The Company expects to use the attached presentation (the "Presentation") at the Conference, as well as from time to time with potential investors. A copy of the Presentation is furnished as Exhibit 99.1 hereto.

Neither this report nor the exhibit attached hereto constitutes an offer to sell, or the solicitation of an offer to buy the Company's securities, nor shall there be any sale of the Company's securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of any such state or jurisdiction.

Forward-Looking Statements

This presentation contains forward-looking statements that reflect our current expectations and views of future events, all of which are subject to risks and uncertainties. You can identify these statements by the fact that they do not relate strictly to historical or current facts. You can find many (but not all) of these statements by the use of words such as “approximates,” “believes,” “hopes,” “expects,” “anticipates,” “estimates,” “projects,” “intends,” “plans,” “will,” “would,” “should,” “could,” “may,” or other similar expressions in this presentation. These statements are likely to address our growth strategy, financial results, and future development programs. You must carefully consider any such statements and should understand that many factors could cause actual results to differ from our forward-looking statements. These factors may include inaccurate assumptions and a broad variety of other risks and uncertainties, including some that are known and some that are not. No forward-looking statement can be guaranteed and actual future results may vary materially. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to: assumptions about our future financial and operating results, including revenue, income, expenditures, cash balances, and other financial items; our ability to execute our growth and expansion plan, including our ability to meet our goals; current and future economic and political conditions; our ability to compete in our industry; our capital requirements and our ability to raise any additional financing which we may require; our ability to attract customers and further enhance our brand awareness; our ability to hire and retain qualified management personnel and key employees in order to enable us to develop our business; trends in our industry; and other assumptions described in this presentation underlying or relating to any forward-looking statements.

We describe certain material risks, uncertainties and assumptions that could affect our business, including our financial condition and results of operations, under “Risk Factors” in our annual report on Form 20-F (the “Annual Report”) filed with the U.S. Securities and Exchange Commission (the “SEC”). We base our forward-looking statements on our management’s beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that actual outcomes and results may, and are likely to, differ materially from what is expressed, implied, or forecast by our forward-looking statements. Accordingly, you should be careful about relying on any forward-looking statements. Except as required under the federal securities laws, we do not have any intention or obligation to update publicly any forward-looking statements after the distribution of this presentation, whether as a result of new information, future events, changes in assumptions, or otherwise.

The forward-looking statements made in this presentation relate only to events or information as of the date on which the statements are made in this presentation. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this presentation, along with the Annual Report and the documents that are filed as exhibits to the Annual Report, carefully and with the understanding that our actual future results may differ materially from what we currently expect.

Industry Data and Forecasts

This presentation contains references to market data and industry forecasts and projections, which were obtained or derived from publicly available information, reports of governmental agencies, market research reports, and industry publications and surveys. These sources generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of that information is not guaranteed. Although we believe such information to be accurate, we have not independently verified the data from these sources. However, we acknowledge our responsibility for all disclosures in this presentation. Forecasts and other forward-looking information obtained from these sources are subject to the same qualifications and additional uncertainties and risks regarding the other forward-looking statements in this presentation due to a variety of factors, including those described in the section entitled “Risk Factors” in the Annual Report and elsewhere in this presentation. These and other factors could cause results to differ materially from those expressed in the forecasts and estimates.

Investment Highlights

Why Invest in Micware?

01 **Strategic Engineering Partner to Leading Japanese OEMs**
Dual relationship: Toyota Motor Corporation ("Toyota") (since 2020) & Honda Motor Co., Ltd. ("Honda") (since 2022) are both customers and strategic shareholders of Micware

02 **Mass-Production Software Know-How and Reusable Assets**
Vehicle-generation experience, modular software assets, and development / quality know-how built through long-cycle original equipment manufacturers ("OEMs") programs

03 **Profitable Core Business Funding the Next Growth Phase**
Record-high gross margin and increased R&D investment provide a strong base to fund growth

04 **micAuto-PF: Turning Automotive Assets into Scalable Services**
Standardizing and commercializing automotive software assets through OEM Consulting, Software Defined Vehicles ("SDV") Services, licenses and products

05 **DynaPlanet: Long-Duration Spatial Intelligence Growth Option**
Commercialization has begun, while large-scale B2B / B2G / OEM deployments remain a medium- to long-term opportunity

How We Create Value Today

A strategic automotive software engineering partner embedded in long-cycle OEM programs

1 OEM Co-Development

- Custom in-vehicle infotainment ("IVI"), navigation, connected and mobility software
- Close integration with OEM development teams
- Mass-production program experience

2 Reusable Software & Know-How

- IVI / navigation software assets
- Development process and quality data
- Large-scale development & operations know-how

3 Follow-On / Recurring Value

- Maintenance and operations support
- Per-unit software licensing
- Follow-on projects across vehicle generations

FY2026 Revenue Mix

80.0%	14.8%	5.2%
Software Development Services	Licensing	Software-related Services

The strategic objective is not to move away from engineering, but to capture more value from the software assets and know-how created through engineering.

Our Mission for Growth

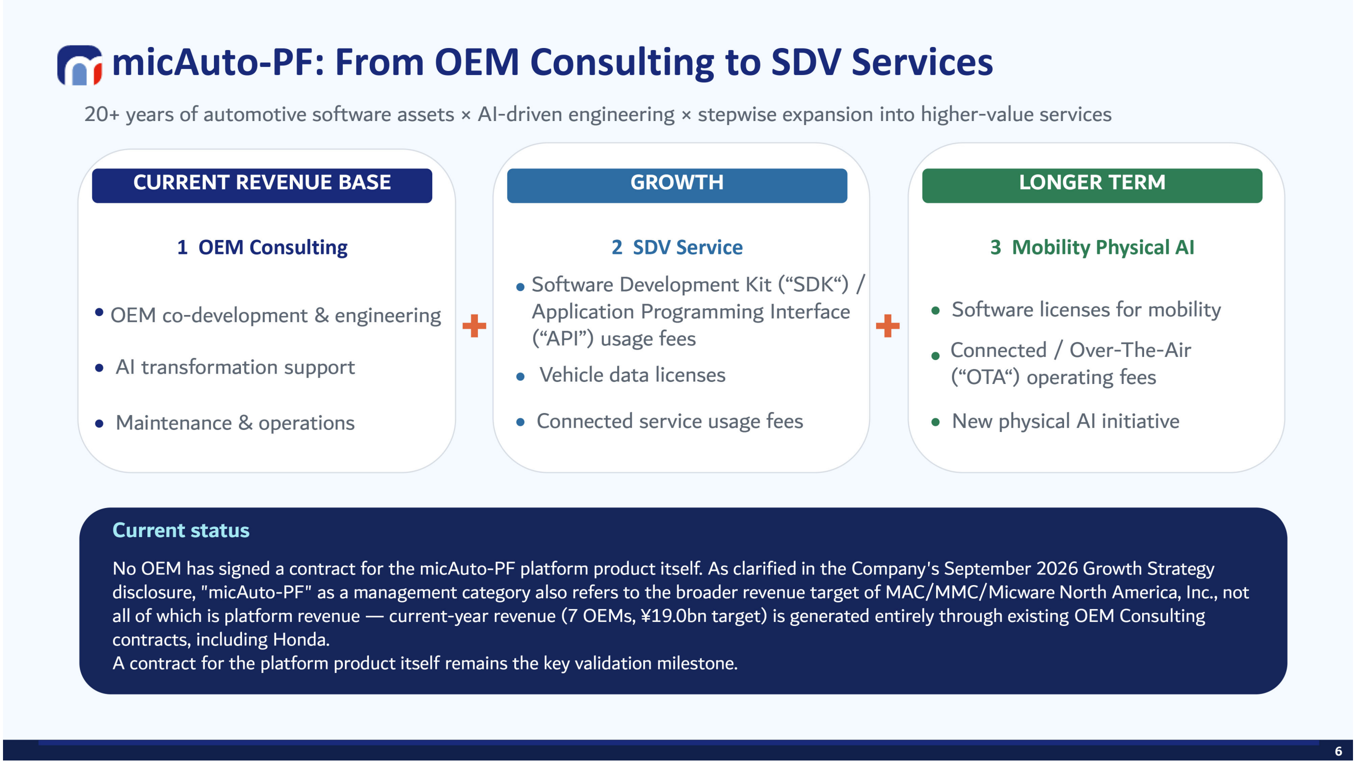
The Two Growth Pillars of Our AI-centric Platform Strategy

micAuto-PF MISSION			DynaPlanet-PF MISSION	
01	Maintain IVI domain	×	01	Collect dynamic data***
02	Expand ADAS* domain		02	Build dynamic spaces***
03	Expand market via Connected**		03	Preserve spatial data
04	Expand quality & assurance		04	Commercialize spatial platform

Go beyond convention through AI

Effective September 1, 2026, Micware Navigations Co., Ltd. was renamed Micware Spacia Co., Ltd. to lead spatial information, and automotive operations were consolidated into Micware Automotive Co., Ltd. (“MAC”) and Micware Mobility Co., Ltd. (“MMC”).

Note: *ADAS: Advanced Driver Assistance Systems. **Connected: Connected Service. ***DynaPlanet's data and space elements.



micAuto-PF: From OEM Consulting to SDV Services
20+ years of automotive software assets × AI-driven engineering × stepwise expansion into higher-value services
CURRENT REVENUE BASE
1 OEM Consulting
OEM co-development & engineering
AI transformation support
Maintenance & operations
GROWTH
2 SDV Service
Software Development Kit (“SDK“) / Application Programming Interface (“API”) usage fees
Vehicle data licenses
Connected service usage fees
LONGER TERM
3 Mobility Physical AI
Software licenses for mobility
Connected / Over-The-Air (“OTA“) operating fees
New physical AI initiative
Current status
No OEM has signed a contract for the micAuto-PF platform product itself. As clarified in the Company's September 2026 Growth Strategy disclosure, "micAuto-PF" as a management category also refers to the broader revenue target of MAC/MMC/Micware North America, Inc., not all of which is platform revenue — current-year revenue (7 OEMs, ¥19.0bn target) is generated entirely through existing OEM Consulting contracts, including Honda.
A contract for the platform product itself remains the key validation milestone.

DynaPlanet: Commercialization Has Begun, Scaling Is the Next Step

A 3D spatial platform connecting real-world digital twins, dynamically updated cities and creator-built virtual worlds.

Paid / custom

01 Real 3D Interiors

- High-precision indoor digital twins
- Stadiums, offices, factories, stations
- Use cases in facility management and real estate

Paid / custom

02 Real 3D Cities

- Dynamic 3D cities from dashcam / sensor data
- Real-time updating and high-quality models
- Smart city, disaster prevention and mobility use cases

Free / ecosystem

03 Virtual 3D Worlds

- AI- and creator-built virtual spaces
- Events, games, education and communities
- Studio planned to launch in January 2027

Current status

Initial commercial revenue is already being generated through our existing DynaPlanet (e.g., PreSpot), deployed independently of Studio's planned January 2027 launch. Large-scale B2B, B2G and OEM platform deployments remain in the early stages, so we view DynaPlanet as a medium- to long-term growth option rather than a near-term earnings driver.

Long-Term Growth Roadmap — Management Targets

Next stage of **“Be There Be Now”**
will be created by our 2 platforms strategy

micAuto DynaPlanet

micAuto-PF

With the power of software,
we’re expanding the future of
MOBILITY

DynaPlanet-PF

Through digital
3D SPACE,
we create brand-new value.

Allocations are subject to change and have not been approved by the board.

Investment | Amount JPY 0.5bn

Investment item	Amount
Expand OEM business	JPY 0.2bn
Evolve connected services	JPY 0.3bn
Total	**JPY 0.5bn**

Revenue target

micAuto-PF	As of	DynaPlanet-PF
JPY 55.0bn	Feb 2033	JPY 33.0bn
JPY 31.5bn	Feb 2030	JPY 10.5bn
JPY 19.0bn	Feb 2027	JPY 3.5bn

Allocations are subject to change and have not been approved by the board.

Investment | Amount JPY 1.0bn

Investment item	Amount
PreSpot	JPY 0.1bn
Platform development	JPY 0.3bn
App and content creation	JPY 0.2bn
Studio development	JPY 0.3bn
Advertising and promotion	JPY 0.1bn
Total	**JPY 1.0bn**

Targets disclosed in the September 2026 growth strategy presentation. They are not earnings forecasts and are not on a consolidated basis.
All figures are management targets, are not built up from individual projects, and may differ materially from actual results.
See the September 2026 growth strategy disclosure for full assumptions and cautionary statements: https://www.ir-micware.com/static-files/f4860a2d-ccfe-4dea-9b63-a223abb5c676

Growth Strategy: Illustrative KPIs by Platform

Operating KPIs behind the management revenue targets, as disclosed September 4, 2026

micAuto-PF

End of this FY (Feb 2027)	Three years out (Feb 2030)	Six years out (Feb 2033)
7 OEM	**15** OEM	**~30** OEM
JPY 19.0bn	JPY 31.5bn	JPY 55.0bn
Expanding the OEM business with micAuto-IVI	Building a service business in the SDV domain	Extending automotive software to wider mobility

DynaPlanet-PF

End of this FY (Feb 2027)	Three years out (Feb 2030)	Six years out (Feb 2033)
DynaPlanet Studio Launch	**1M** Users	**10M** Users
JPY 3.5bn	JPY 10.5bn	JPY 33.0bn
Creators 10	Creators 10k	Creators 100k
Apps 10	Apps 10k	Apps 100k
B2B projects 10	B2B projects 100	B2B projects 300

Illustrative KPIs are management targets disclosed in the September 2026 Growth Strategy presentation, not earnings forecasts, and there is no assurance they will be achieved. "OEMs" includes automobile and motorcycle manufacturers.
All figures are management targets, are not built up from individual projects, and may differ materially from actual results. See the September 2026 growth strategy disclosure for full assumptions and cautionary statements.

Why Invest Now?

The core business is proven today; value creation from the growth options depends on commercial validation and scaling.

	Near-Term Catalysts	Growth Horizon
01	**Proven core economics and cash generation** FY2026 gross margin of 36.8%; cash and cash equivalents of US$52.9m※ ※as of Feb 28, 2026, pre-IPO — excludes ~US$23.9m of IPO net proceeds received in May 2026	Now
02	**Durable positioning with leading Japanese OEMs** 20+ years of collaboration, mass-production know-how and reusable software assets	Now
03	**Clear path from engineering to service / license revenue** micAuto-PF explicitly bridges OEM Consulting, SDV Services and licenses / products	Near term
04	**Commercial validation milestones ahead** External-OEM validation for micAuto-PF and scaling deployments for DynaPlanet can change the evidence base	Medium term
05	**Long-term optionality backed by planned investment** Management targets provide a long-term roadmap, funded by IPO proceeds and operating cash flow	Long term
